

If you have logged into your Online Banking account through our mobile app you might have some trouble finding out where to access Text Banking and Alerts. Here is a guide on how to access those things and more.

1. Sign into Online Banking
2. Click the Mobile link at the top right of the page.

3. If you see the screen below, click on “Add New Device”

#### Main Menu

Click the tabs below to manage your Mobile Banking options.

A screenshot of the 'My Devices' screen. At the top are three tabs: 'My Devices' (highlighted in yellow), 'My Accounts', and 'My Profile'. Below the tabs is a table with columns for 'Device Details', 'Carrier', 'Status', and 'Receive Alerts'. The 'Device Details' column contains a large empty text box. The 'Receive Alerts' column has two rows, each with a checkbox, the text 'I want to:', a dropdown menu, and a 'Go' button. The first row's dropdown is set to 'Change my phone number'. The second row's dropdown is set to 'Stop using this device for Mobile Banking'. Below the table is an 'Add New Device' button with a red arrow pointing to it from the right.

4. Input your phone number into the box provided and click continue.

You will then be brought to the screen you normally would have been taken to in which you can sign up for Mobile Browser banking, Text Banking, and Alert Banking for your device.
